# Features and Benefits

## SERVICEABILITY FEATURES

- Slide out cooling chassis for ease of service
- Slide out heating assembly that allows for easy access to all gas heat components
- Refrigerant service ports are located on the outside of the cooling chassis
- Factory installed condensate float switch
- High Efficiency TXV on all models to allow for field adjustments, if required
- See through sight glass that allows for viewing the control board status codes and main burner function
- All electrical components are serviceable from front of the unit
- Compressor capacitor, compressor contactor, and indoor fan control located on panel at the front of the unit
- Additional cooling chassis can be stocked and switched out to limit down time of the occupant
