

# Enclosure Filter Box for IAQ Rated Filters

## Purpose:

- Allows for the placement of regular 20 X 25 filters in ducted return applications.
- Allows for the return air to be ducted from a different location than the direct space under the unit.
- Can be complemented with field installed non-louvered panels: (965-1, 966-1, 967-1, and 967-7).

## Benefits:

- Allows for regular filter installation.
- Contractors can now buy and replace filters with more convenience.
- Keeps ducted air supply filtered to current IAQ standards.
- Allows for filter access from a regular unit panel access.
- Fits 1" and 2" thickness filters.

## Effects on airflow:

- Add 0.38 static with MERV13 Filter vs 0.30 static with MERV11 Filter (2" Filter).

## Compatibility:

### HX Cased

- **1000-1 for:**  
Sizes 18-30HX  
Cabinets 9EHX01 & 9EHX02
- **1000-2 for:**  
Sizes 31-37HX  
Cabinets 9EHX03 & 9EHX04

### CDX

- **1000-1 for:**  
Sizes 12-19CDX  
Cabinets 9ECDX01
- **1000-2 for:**  
Sizes 20-37CDX  
Cabinets 9ECDX02, 9ECDX03, 9CDX04

*Current version not compatible with hydronic enclosures (CHH, CHBC)*
