

Air-Handlers

Multi-Position, Heating Only
Up to 109,200 BTUH Heating
305 to 1500 CFM
(Without Pump)

The **FWA-HW** products are compact, multi-position, cased air handlers that include hot water coils for hydronic space heating. The **FWA-HW** series is specifically designed for boiler loop and does not include a circulating pump. The cabinet is made of embossed galvanized steel and is fully insulated.

Note: FWA-HW models State of MA, .248 CMR code of the state of MA requires a pump timer. (60 seconds every 6 hours)

These fan coils are compatible with any source of hot water that doesn't exceed 180^o and is NSF/ANSI certified for use with domestic water.

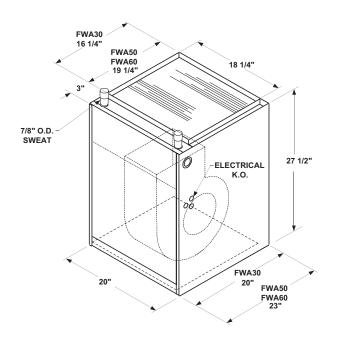

STANDARD FEATURES

- · Cabinets are embossed galvanized steel and fully insulated
- Compact size 20" or 23" deep and only 27" tall
- Three or four motor speeds to chose from (single speed operation)
- Highly efficient copper tube / aluminum fin coils
- Upflow, downflow, or horizontal (left or right) installations
- · Blower door safety switch
- Factory installed filter
- · Manual air vent on coil
- 120/24V transformer and fan relay

OPTIONAL ACCESSORIES

- Remote "flow control" assembly for **FWA-HW** models (part # **940-3CV**). Mounts in hot water line external to unit.
- Freeze protector for units with circulating pump

Multi-Position, Heating Only

Note:

Flow Control Modules are required when connecting to individual gas water heaters.

Note:

1. ALL models are factory wired on high speed.

Note

Motors are 120V multi-speed

In keeping with its policy of continuous progress and product improvement, First Co. reserves the right to make changes without notice.
